

SIDELINE Asphalt Sealing 724-217-5575

HOME

COLD PATCH REPAIR

Thank you for your interest in *SIDELINE Asphalt Sealing* services.

SIDELINE offers asphalt and pothole repair using either hot or COLD PATCH.

SIDELINE will evaluate which method is best for your need. Most holes in an asphalt surface can be repaired using COLD PATCH poured directly into the area needing repaired. When hardened it becomes a permanent repair.

Prevention the Best Medicine

Taking care of cracks when they are small prevents the larger, more expensive solution to keeping your driveway, parking area, or walkways maintained.

Is Your Asphalt Calling Out for Its Holes to be Repaired?
